

It is with great pleasure that I join members of the community in laying the foundation stone for the Werribee Islamic Centre complex.

Since it was founded 11 years ago, the Werribee Islamic Centre has been a pillar of the community. This new complex is a reflection of the hard work many local members of the community have put into creating a space of understanding, education and celebration of a vibrant culture and religion.

I wish to congratulate everyone who has worked to make this new complex a reality, to expand the great contribution that the Werribee Islamic Centre has already made to the west.

I look forward to joining you at future community gatherings and celebrations here in the years to come.
